YOUR COURSE, YOUR WAY - MORE EFFECTIVE IT TRAINING

InDesign Introduction / Intermediate

Duration: 2 days

Overview:

Aspect's InDesign introduction / Intermediate training course allows you to learn about the tools and features available in Adobe InDesign which take desktop publishing and design to a new level combining extraordinary production power and creative freedom with tight integration with Adobe Photoshop, Illustrator and Acrobat software. You will learn to create simple documents and prepare them for print or export as a PDF. Topics in this training course include learning the work area, working with text and graphics, creating simple vector based graphics, and the basics of design.

Through this training course, you can join the growing ranks of creative professionals discovering new levels of creative freedom and productivity using Adobe InDesign software. Tightly integrated with the Adobe applications you use most, InDesign delivers faster production workflows and a more fluid creative environment for designing professional layouts with sophisticated graphics and typography.

Prerequisites:

There are no prerequisites for this course.

Topics:

1 - Managing the Adobe InDesign Environment

Preferences

Customize Your Workspace

Set General Preferences
